

Data Based on clean Water 20° C / 65° F

## PERFORMANCE CURVE

TYPE MD 50-4

| Maximum Pressure based on Abrasivity |     |        |      |
|--------------------------------------|-----|--------|------|
| No                                   | Low | Medium | High |
| 24                                   | 20  | 16     | 12   |

Starting Torque = 155 Nm \ 1372 lbs\*in

Performance tolerance ±10%
